

Connecting to Sims from a Mac

1) To connect to Sims you will need to download Microsoft Remote Desktop from the Apple 'App Store'

2) Sign in to the 'app store' using your own Apple ID and search for Microsoft Remote Desktop

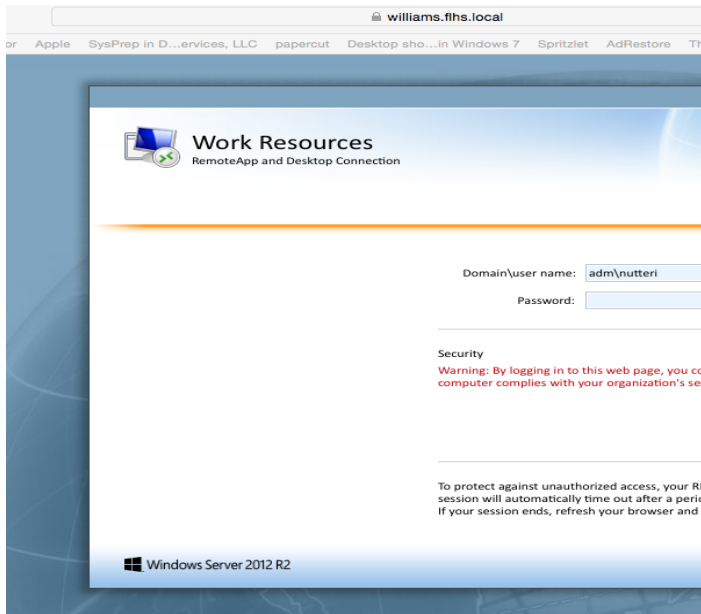

3) Buy the app (free) and when the install is complete navigate to the following website

"https://williams.flhs.local/rdweb – select continue

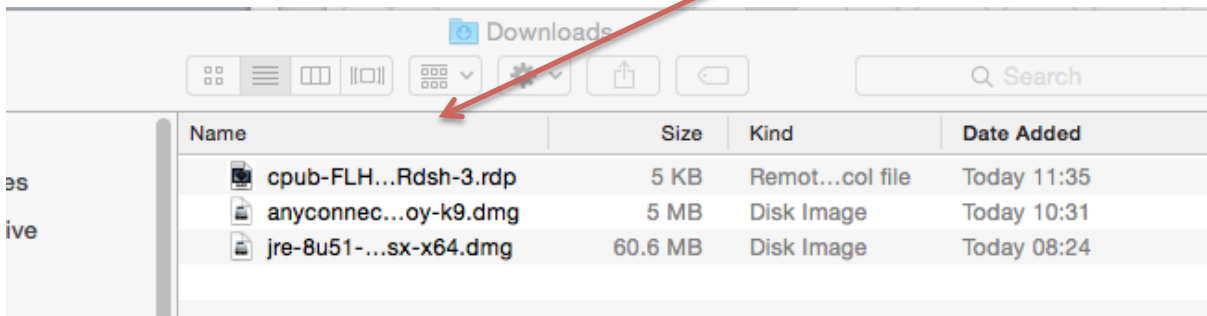

4) Log in with your ADMIN credentials as follows: *note you must type the domain name adm\username*

5) Once signed in double click on the following icon

6) Once the RDP connection has downloaded, locate the file cpub-FLHS_ADM-FLHS_ADM-CmsRdsh-10.rdp

7) Right click on the file and select **open with** and from the available applications select **Microsoft Remote Desktop** – Enter your login credentials for e.g.

Username: nutteri

Password: ****

This will then load the normal Windows desktop for the admin network

8) From the start menu you will now be able to load **Sims** as on computers in school.
