Dear Resident,

Proposed Redevelopment on the Fred Longworth High School Campus

As a local resident we wanted to inform you of the proposals for development at our school. The Department for Education have granted funding for the school campus to be provided with new purpose-built accommodation and sports facilities. BAM Construction have recently been appointed as the developer partner and they are currently progressing the design, with a planning application to be submitted on 3 September 2021.

The school admission numbers and criteria will remain the same. The new school building will be built on the field next to the newly built CIF and Art blocks which will be retained. This will allow the school to remain open during the construction phase. Once construction is completed the old buildings will be demolished and formed into a new playing field and external space. There are no significant changes proposed in vehicle and pedestrian access arrangements and all current rights of way will be maintained throughout and following construction.

The rebuilding project will complete our property strategy to create a modern, efficient and engaging learning environment to build on the excellent work that already takes place in the school. This is a fantastic opportunity for the school and will enable us to provide the modern, state of the art facilities that our students and staff deserve.

We are holding a public exhibition at the school and would like to invite you to come and see the proposals for yourself. Members of the school and developer team will be on hand to answer any questions you may have.

The public exhibition will be at the Flexible Learning block at the rear of the school.
Drop in anytime on **Tuesday 24 August between 2-5pm** or **Thursday 26 August 5-8pm**.

The consultation boards and feedback forms will also be available from the 24th August on the school website at flhs.org.uk/public-consultation.

We look forward to seeing you then.

Yours sincerely

Mr P Davies, Headteacher
