

# Subject Selections: 2023

## A message from the Headteacher, Mr P. Davies:

Selecting subjects to study at Key Stage 4 is an exciting and nerve-racking process for students, and the guidance that we – their teachers and parents - give them is essential in helping them to make the right choices. Through the option process, we aim to provide you with all the information required in order to make informed choices. We must remember that the subjects chosen by the students will be studied for two years, so it is vitally important to take the time to get these choices right.

All students will study English Language, English Literature, Mathematics and Science. This is what we refer to as the core curriculum. As well as this, all students will participate in two hours of Physical Education each week, as well as a carefully balanced Personal, Social, and Health Education programme, which also includes careers education.

Students will then choose up to four additional option subjects. We believe it is important that students choose a balance of both academic and creative subjects. This broad and balanced curriculum will, we believe, give them the best possible chance of success. Through the subject selection process, we will guide learners towards courses and combinations of courses in which they will thrive. We do this by placing each student in a Progression Route. Parents and students will be invited to attend one-to-one options meeting with a member of our senior team. It is imperative to attend this meeting with your child.

We look forward to working with you throughout this process.

**B**elonging **E**ngaging **S**ucceeding **T**ogether

# Making the Right Choices and Studying the Right Combination of Subjects

We want to ensure that all students at Key Stage 4 (Year 10 onwards) study a broad and balanced curriculum, covering a wide range of different disciplines. In doing this young people are provided with the foundations of knowledge and skills to enable them to be lifelong learners and achieve success in school and throughout their life. It is perhaps useful to consider subjects within the curriculum as being in three distinct areas:

**Core Subjects.** Core refers to English Language and English Literature, Mathematics and Science (either the Double Award Combined Science or, for those students who choose to study the three separate sciences, GCSE Separate Science). Students **must** study these subjects.

**EBacc Subjects.** This refers to the Humanities' subjects of History or Geography, a Modern Foreign Language, French or Spanish.

**Creative Subjects.** This refers to the subjects from the disciplines within the Expressive Arts such as Dance, Music, or Drama; Physical Education; Design and Technology; Creative I-Media; Business Studies; Computer Science; Vocational subjects such as Sports Studies or Food Technology. This also includes Humanities' subjects such as Religious Education and Sociology.

## **What to choose**

The Department for Education recommends the following subject combination which collectively make up what is known as **The English Baccalaureate** (or **EBacc** for short).

- English Language and English Literature
- Maths
- Science (Combined Science or GCSE Separate Sciences)
- History or Geography
- French (or Spanish if this was chosen as the preferred language in Y9)

The EBacc combination of GCSE subjects offers an important range of knowledge and skills to young people. While your child may not have decided on their future career path yet, choosing the subjects aligned with the EBacc at GCSE gives them a full range of employment options when they leave secondary school and the broad knowledge that employers are looking for. Studying and achieving well in this combination of subjects is considered the academic gold standard. Computer Science can also count towards the English Baccalaureate if it is chosen as an option.

In total, your child will be studying a total of 9 GCSEs. Outside of the EBacc subjects, students have further option choices from the Creative subject areas such as the Arts, Design Technology, or IT. This helps to provide to provide a balanced curriculum for your child.

## **Progression Routes**

Based on our knowledge of the students, we group students into two Progression Routes, Q and U to help guide subject choices.

**Q Progression Route:** Students in the Q Progression Route are expected to study the full English Baccalaureate. As well as English Language, English Literature, Mathematics and Science, they study either History or Geography and French (or Spanish if this was chosen as the preferred language in Y9). Students in this Progression Route have the option to select GCSE Separate Science.

**U Progression Route:** All students in this progression route must study English Language, English Literature, Mathematics, Science, History or Geography. Students in the U Progression Route can study the full English Baccalaureate if they wish to do so. If this is the case, they would also need to choose French (or Spanish if this was chosen as the preferred language in Y9)

## **Choosing other subjects**

Once students have selected their initial EBacc subjects, the remainder of student option choices come from the Creative Subjects.

## **How to guide your child through the Options process**

There are several things you can do to ensure that your child fully engages in the process.

- Remind them to read the information in the booklet carefully please. We encourage students to think hard about subjects they enjoy, are challenged in and will help them in later life. Remind them not to close any doors until they have carefully considered the benefits of each subject.
- Tell your child to speak to their teachers or those who have been identified as subject leads if they are unsure about a subject and what it entails at GCSE. Students could email the subject lead if they are finding it difficult to meet them during school time.
- Ask your child to sit down with you/ someone at home to talk through their options and explain their thought process. Remind them not to write a subject off immediately and to think about the doors that a subject might open and the life skills they might develop.
- Ensure that you and your child attend the SLT options meeting. Encourage your child to be prepared to explain their thought process and have any questions ready.

## **Key dates you should note:**

**W/B Monday January 30, 2023** – Year 9 Option Assemblies

**Thursday February 2, 2023** – Year 9 Options and Parents' Evening

**Wednesday February 8, 2023** – Year 9 Option Process Assembly

**Wednesday February 15 & Thursday February 16, 2023** – Year 9 One-to-One Options Meetings with Senior Staff.

**Friday March 3, 2023** – Deadline for Year 9 Options to be in.

The table below can be used as a guide to help your child to consider their options.  
 (All students will have lessons of Core PE, Careers & Personal Development throughout the year)

	Progression Route Q	Progression Route U
<b>GCSE English Language and Literature</b>	Your child will study both English Language and Literature	Your child will study both English Language and Literature
<b>GCSE Maths</b>	Your child will study Maths	Your child will study Maths
<b>Science</b>	Your child will study the Double Award -Trilogy Science Course (worth 2 GCSEs) UNLESS they opt to study GCSE Separate Sciences	Your child will study the Double Award - Trilogy Science Course (worth 2 GCSEs)
<b>Humanities</b>	Your child will need to choose either Geography or History	Your child will need to choose either Geography or History
<b>Option Subjects</b>	<p><b>Your child will need to choose <u>three subjects</u> from the list below:</b></p> <ul style="list-style-type: none"> <li>• GCSE French <b>or</b> GCSE Spanish (if taken in Y9) to qualify for the full EBacc</li> <li>• GCSE Separate Science (following a discussion with HOF Science)</li> <li>• GCSE Art &amp; Design (Fine Art) <b>or</b> GCSE Art &amp; Design (Graphic Communications) <b>or</b> Art &amp; Design (Photography)</li> <li>• GCSE Business Studies</li> <li>• GCSE Computer Science</li> <li>• Creative I-Media</li> <li>• GCSE Sociology</li> <li>• GCSE Religious Studies</li> <li>• GCSE Physical Education <b>or</b> OCR Cambridge Nationals Sports Studies</li> <li>• GCSE Textiles <b>or</b> GCSE Design &amp; Technology <b>or</b> WJEC Hospitality &amp; Catering.</li> <li>• GCSE Drama <b>or</b> BTEC Performing Arts (Acting)</li> <li>• BTEC Performing Arts (Dance)</li> <li>• GCSE Music or BTEC Music Practice</li> </ul>	<p><b>Your child will need to choose <u>three subjects</u> from the list below: :</b></p> <ul style="list-style-type: none"> <li>• GCSE French <b>or</b> GCSE Spanish (if taken in Y9) to qualify for the full EBacc</li> <li>• GCSE Art &amp; Design (Fine Art) <b>or</b> GCSE Art &amp; Design (Graphic Communications) <b>or</b> Art &amp; Design (Photography)</li> <li>• GCSE Business Studies</li> <li>• GCSE Computer Science</li> <li>• Creative I-Media</li> <li>• GCSE Sociology</li> <li>• GCSE Religious Studies</li> <li>• GCSE Physical Education <b>or</b> OCR Cambridge Nationals Sports Studies</li> <li>• GCSE Textiles <b>or</b> GCSE Design &amp; Technology <b>or</b> WJEC Hospitality &amp; Catering.</li> <li>• GCSE Drama <b>or</b> BTEC Performing Arts (Acting)</li> <li>• BTEC Performing Arts (Dance)</li> <li>• GCSE Music or BTEC Music Practice</li> </ul>

Please give serious thought to your reserve choice. All students must choose a reserve subject. This is important for several reasons:

- Due to staff availability, some subjects will be restricted to one or two groups.
- Some subjects have restrictions on the number of students due to the equipment they are required to use or health & safety considerations.
- Subject viability. If there is an insufficient number of students who opt for a subject, it will not be taught this academic year.

## A Note from Laura Cross, your Careers Adviser

As a School, we ensure your child gets a broad education, which offers a good foundation for future options, but making any decision like this can be stressful so it is worth thinking about the following:

- This is one of the very first decisions students have had to make by themselves and one that will have an impact on their futures. It is important to consider what they enjoy rather than what their friends want to do.
- If students have specific career ideas, it will be important to do research in order to check how these fit – see Resources below. Remember what you want to do now in Year 9 can change dramatically by Year 11.
- Many new subjects can be started at college such as Psychology or Sociology, but it can be difficult to continue Languages or Arts subjects without a qualification from school.

### Resources:

- Our school website contains lots of information about careers, next steps, colleges etc which can be accessed by clicking on the 'Careers Education' tab.
- Xello / GMACS - this is a careers support tool for all young people, there is a careers matchmaker quiz – which looks at likes and dislikes and links to career ideas, along with many other resources such as a CV builder. Students will be using this tool throughout their time in school to record any interactions with careers / employers / Further and Higher Education providers. Students can sign into their office 365 account at home and search for the Xello app on the left-hand side. Parents can find more info on <https://gmacs.co.uk/parents-and-carers>
- <https://nationalcareers.service.gov.uk> is a useful resource including job role profiles, a skills assessment and lots of information on courses, Careers Guidance and Careers information.
- [www.icould.com](http://www.icould.com) if students are struggling with ideas, this is a great website for generating them. The Buzz Quiz is a quick and easy tool to help students to understand themselves a little bit more.
- Individual Careers Guidance: I am available in School Tuesday – Friday, if
- students would like an individual guidance interview before they reach Year 10; they just need to ask their Head of Year to make the referral. Parents can also contact me by telephone or email.

**Phone: 01942 881455**

## EBacc Subjects - History and Geography

The Humanities' subjects of History and Geography make up part of the EBacc. They are known as **facilitating subjects**, because they are highly valued as a gateway to a wide range of careers and further study. These sectors include: policing, education, law, accountancy, media and journalism, local government, business, finance and the civil service. Students in all Progression Routes must choose either History or Geography. Many students who opt to take History or Geography at GCSE go on to take A-levels and then degrees within humanities, the arts, and/or social sciences. However, many also utilise the skills developed during their Humanities GCSE studies by choosing degrees in something more vocational, such as law or management sciences. Students who are able to should pursue the full English Baccalaureate, which includes taking History or Geography alongside a language. The Head of Humanities - and your first point of contact - is Mr Mooney.

### **Edexcel GCSE History**

#### **Assessment: 100% examination**

Paper 1 30% (1 hr 15 mins)

Paper 2 40% (1 hr 45 mins)

Paper 3 30% (1 hr 20 mins)

**Paper 1:** Thematic Study and Historic Environment: Medicine in Britain c1250 to present, and The British sector of the Western Front, 1914-1918: injuries, treatments and the trenches

**Paper 2:** Period study and British depth study: The American West c1835-c1895, and Anglo-Saxon & Norman England, c1060-88

**Paper 3:** Modern depth study: Weimar and Nazi Germany, 1918-39

Students studying History will gain the skills and knowledge required to meet the demands of 'A' levels in a range of subjects, and to succeed at university and in the wider world. This subject may also lead students to a career in the media, business, teaching, law, museums and heritage, psychology, travel and tourism and many others. Students in all Progression Routes are encouraged to choose to study History.

The Head of History – and your first point of contact - is Miss Causby.

### **Eduqas (Syllabus B) GCSE Geography**

#### **Assessment: 100% examination**

**Paper 1:** Investigating Geographical Issues 40% (1 hour 45 minutes)

**Paper 2:** Problem-Solving Geography 30% (1 hour 30 minutes)

**Paper 3:** Applied Fieldwork Enquiry 30% (1 hour 30 minutes)

**Theme 1:** Changing Places - Changing Economies: Urbanisation in Contrasting Global Cities; Urban and Rural Processes & Change in the UK; a Global Perspective on Development Issues.

**Theme 2:** Changing Environments: Shaping the Landscape – Coasts and Coastal Management; Shaping the Landscape – Rivers and River Management; Weather and Climate; Climate Change – Cause and Effect.

**Theme 3:** Environmental Challenges: How Ecosystems Function; Ecosystems Under Threat; Water Supply and Demand; Desertification.

Students studying Geography will develop knowledge, understanding and transferable skills that are needed to progress in a range of A level courses, vocational courses, and Higher Education. These skills are highly desirable with employers and may lead to careers in areas such as risk and hazard management, aid and development, conservation, education, health, environmental management, international relations, meteorology, planning, sustainability, energy, tourism, and landscape design. Students in all Progression Routes are encouraged to choose to study Geography.

The Head of Geography – and your first point of contact - is Mr Mooney.

## EBacc Subjects – French and Spanish

A Modern Foreign Language subject contributes to the EBacc. A language, like History and Geography, is an incredibly valuable qualification that will open many doors in a range of careers. Like History and Geography, it is a **facilitating** subject. The memory and communication skills that studying a language develops help to support students in almost every field. Moreover, students may increase their employment options by studying a language – language graduates earn £60000 more than the national average during their careers! In the increasingly global community in which we live, we feel strongly that Fred Longworth students should study Spanish or French. Students who can, should pursue the full English Baccalaureate, which includes a Language.

The Head of Global Communications, and your first point of contact, is Mr Norman.

### **AQA GCSE Spanish \*\***

#### **Assessment: 100% examination**

Spanish GCSE students will study the following themes, on which their assessments will be based:

Theme 1: Identity and culture

Theme 2: Local, national, international, and global areas of interest

Theme 3: Current and future study and employment

Students studying Spanish will develop as communicators, which will be reflected through their assessment. They will be assessed for their skills in:

- Listening 25%
- Speaking 25%
- Reading 25%
- Writing 25%

A GCSE in a language like Spanish supports opportunities to travel and appreciate different cultures; not everyone speaks English!

The Head of Spanish – and your first point of contact – is Mrs Barlow.

**\*\* Please note that those Year 9 students who opted to do Spanish in Year 9 this year are expected to choose Spanish as one of their options.**

### **AQA GCSE French**

#### **Assessment: 100% examination**

French GCSE students will study the following themes, on which their assessments will be based:

Theme 1: Identity and culture

Theme 2: Local, national, international, and global areas of interest

Theme 3: Current and future study and employment

Students studying French will develop as communicators, which will be reflected through their assessment. They will be assessed for their skills in:

- Listening 25%
- Speaking 25%
- Reading 25%
- Writing 25%

A GCSE in a language like French supports opportunities to travel and appreciate different cultures; not everyone speaks English!

The Head of Global Communications – and your first point of contact – is Mr Norman

## EBacc Subjects – Separate Sciences

All students automatically study the Double Award for Science which gives students a strong grounding in all the Sciences. However, the GCSE Separate Science option is available to students in Progression Route Q who wish to specialise in the distinct disciplines of Biology, Chemistry and Physics. Choosing the GCSE Separate Science option fills one of your child's choices. We strongly recommend that GCSE Separate Science students also take a Language to quality for the full EBacc.

### **AQA GCSE Separate Sciences GCSE: Biology, Chemistry, Physics (Triple Science)**

**Assessment: 100% examination.**

#### **Selection for Separate Science is at the discretion of the Head of Faculty**

There will be one Triple Science class running, which will be made up from students in Progression Route Q who specifically choose this option. Students taking this course will be awarded with three separate GCSEs: Biology, Chemistry and Physics, with distinct grades ranging from 9 to 1 in each.

The disciplines are taught separately by subject specialist teachers and the course covers extra content, in addition to that studied in the Combined Science Trilogy course. As in Trilogy, there is a strong emphasis on practical and investigative work, with students completing **eight** compulsory practical experiments for each GCSE.

The question types and nature of the assessment is the same as for Combined Science; however, the **two** Biology, **two** Chemistry and **two** Physics examinations taken at the end of Y11 will each have a duration of 1 hour 45 minutes to assess the additional content covered. All papers are equally weighted and worth 50% of a GCSE grade.

If you want to know more about the course please speak to your teacher or Mrs Dobson the Head of Science, or Mrs Jones who is the KS4 Science Lead.

***\*\* Please note that due to staff availability, there will only be one (1) class of Separate Science. If more students opt for this subject than can be accommodated a random selection process will be undertaken.***

## Creative Subjects – Art and Design

Art and Design courses equip students with an extensive creative portfolio that will give them access to a wide range of Level 3 courses and a path to university. Students go on to study: A Level Art & Design, A Level Photography, National Diploma in Fashion, Graphics, Advertising, Fine Art NCFE Level 3 Creative courses (of which there are a wide range), and BTEC Foundation Studies in Art & Design amongst others. These qualifications all offer a path to university study. At University, many students go on to study: Fine Art, Interior Design, Fashion, or Photography. If students aren't sure which the best qualification for them is, they should speak to Mr Kime, Mrs Neild or Miss Myles. *Please note that students cannot study both GCSE Art & Design and GCSE Graphic Communication together. All three GCSE A&D subjects are heavily portfolio based and whilst it is possible to study both Art & Photography or Graphic Communication & Photography together, we only consider this for students who display the required commitment to the subject and have a strong desire to pursue Art & Design further.*

### **GCSE Art and Design: Art, Craft & Design**

#### **Assessment: 60% Coursework, 40% Externally assessed assignment**

Students will develop an understanding of Art through the practical activities of investigating and making, and through the evaluation of their own work and that of other artists from different periods and cultures. They will work mainly in the areas of drawing, painting, sculpture, printmaking, and mixed media. We invite students from all Progression Routes to choose to study GCSE Art and Design: Art, Craft & Design

Your first point of contact is Mrs Neild.

*Please note that students are unable to opt for both Art, Craft and Design and Graphic Communication Due to coursework commitments, we only consider combining this subject with Photography for students who display the required commitment to the subject and have a strong desire to pursue Art & Design further. See Mr Kime to discuss this.*

### **GCSE Art and Design: Graphic Communication**

#### **Assessment: 60% Coursework, 40% Externally assessed assignment**

Students will develop an understanding of Graphic Design through a series of projects with the intention of providing a clear understanding of how a professional Graphic Designer may work on commercial briefs and more experimental projects. They will develop their work through the study of designers, illustrators, animators, and filmmakers from a range of genres and explore techniques including typography, illustration, animation and show experiments in both hand drawn and digital mediums. We invite students from all Progression Routes to choose to study GCSE Art and Design: Graphic Design. Your first point of contact is Mr Kime or Miss Myles. *Please note that students are unable to opt for both Art, Craft and Design and Graphic Communication. Due to coursework commitments, we only consider combining this subject with Photography for students who display the required commitment to the subject and have a strong desire to pursue Art & Design further. See Mr Kime to discuss this.*

### **GCSE Art and Design: Photography \*\***

#### **Assessment: 60% Coursework, 40% Externally assessed assignment**

Students will be introduced to a variety of experiences exploring a range of techniques in Photography. Students will be expected to demonstrate practical skills and be able to evaluate their own work alongside that of other photographers. Students will learn the key technical skills of photography and learn to apply them to their own work. This course will provide students with opportunities to research, develop and realise ideas in a variety of ways including opportunities to try traditional darkroom photography and experimental analogue techniques. All students are provided with a camera to use in school and will present work in a digital portfolio using Office 365. We invite students with any level of photography experience to choose to study GCSE Art and Design: Photography. Your first point of contact is Mr Kime or Miss Myles.

## Creative Subjects - Dance

The performing arts have a rich and successful legacy at Fred Longworth High School, and Dance has been a key part of this over many years. Crucially, students pursuing Dance as a qualification will be expected to take advantage of the extra-curricular enrichment opportunities available to them.

The Dance courses we offer prepare students for a range of post 16 Level 3 qualifications, including A Level Dance/Performing Arts; National Diploma Level 3 BTEC Performing Arts: Dance; NVQ Dance/Performing Arts.

Your first point of contact is Mrs McPhail or Mrs Cowan

### **BTEC Technical Award in Performing Arts: Dance** **Dance Assessment: 50% Practical, 50% Theory**

BTEC Dance is an integrated practical and theoretical course in which students enhance their skills in dance composition, performance, and appreciation. Students will work alone and in groups, exploring a variety of dance styles and techniques, thus broadening their understanding of the art form. The opportunity to work alongside professional artists, watch live dance and perform live is an essential part of the course.

Component One: Understanding and Exploring (30%)

Component Two: Development of Skills and Techniques (30%)

Component Three: Performing to a Brief (40%)

Students complete a range of three practical units all of which involve preparing for, and contributing to, a dance performance. Assessment is through the creation of a portfolio of video evidence, logbooks, and research tasks. Grades awarded are Pass, Merit and Distinction. The course is heavily based around practical activities and completing assignments. The qualification provides an opportunity to learn about:

- The art of choreography
- Performance skills
- Gaining experience in live performance situations.

Your first point of contact is Mrs McPhail & Mrs Cowan.

## Creative Subjects – Drama and Performing Arts

### **GCSE Drama**

**Assessment: 70% Theory, 30% Practical**

**Component One:** Understanding Drama - 40%

**Component Two:** Devising Drama (Practical) - 40%

**Component Three:** Texts in Practice (Practical) - 20%

Drama GCSE engages and encourages students to become confident performers, directors, collaborators, and designers, equipping them with the skills they need for a bright and successful future. Performance is paramount: there is as much opportunity as possible for students to do what they enjoy most – participate in performance.

All students devise drama and explore texts practically by working on two text-based performances.

Students can choose to develop as: 1) performer 2) designer (lighting, sound, set, costume, puppetry), or 3) performer and designer. Whichever option they choose, students can be sure to gather many invaluable skills, both theatrical and transferable, to expand their horizons.

The written exam paper asks students to combine what they have learned about how drama is performed with their practical experience and imagination.

This specification ensures continuity for students progressing from GCSE Drama to A-level Drama and Theatre. Students who go on to A-level are already familiar with studying whole set texts for the written papers. They have built solid foundations in reviewing a live theatre production and in interpreting key extracts. All of these aspects feature in A-level as well as the GCSE.

*Please note that students cannot study both BTEC Performing Arts: Acting Level 1/2 and GCSE Drama together.*

Your first point of contact is Mr. Moloney, Mrs Walters or Mr Turner.

### **BTEC Level 1 / 2 Tech Award in Performing Arts: Acting**

**Assessment: 50% Practical; 50% Coursework**

This course focuses on the learner's ability and desire to perform as well as developing the skills required to thrive in the Performing Arts industry. Assessment is through the creation of a portfolio of evidence and the completion of assignments that lead toward a final grade: These are awarded as a 'Pass', 'Merit' or 'Distinction'. Through the study of four practical units, our learners will:

- Acquire and develop fundamental practical skills
- Collaborate effectively and productively toward a project focused outcome
- Focus on performance ability by developing critical awareness
- Create works of theatre for public performance
- Develop existing skills relating to the performance industry
- Observe and analyse professional works of theatre.
- Function more effectively as an independent learner in developing new skills
- Develop confidence in communicating effectively with an audience
- Use problem-solving skills in a practical context.

This specification prepares students for Level 3 qualifications, including BTEC National Diplomas and A Levels in Drama and Theatre Studies.

Your first point of contact is Mr Moloney or Mr Turner.

*Please note that students cannot study both BTEC Performing Arts: Acting Level 1/2 and GCSE Drama together.*

## Creative Subjects - Music

Music performance, composition and listening/analysis can be studied on either the Music GCSE course or the RSL Music Performance course. The courses offered can lead to several Level 3 qualifications, such as A Level, BTEC National Diploma and Level 3 Music Practitioners, which are offered by several local colleges. Many of our students who have completed further academic courses or vocational qualifications, have gone on to study music at College and University, whilst others have gained employment in arts-related careers, such as: sound recording engineer, technician, arts administrator, concert manager, and music teacher.

Unfortunately, due to staffing, places are limited on both of our Music courses. If we have many students expressing an interest in studying our music courses and we cannot accommodate the numbers, we will prioritise the students who have shown commitment to Music and our extracurricular Music Programmes.

*Please note that students cannot study Level 2 Certificate in Music Performance and GCSE Music.*

Your first point of contact is Mrs Robinson or Miss Dalton.

### **GCSE Music\*\***

**Assessment: 40% Examination; 60% Coursework**

**Performance Assessment:** Solo and Ensemble Performance - 30%

**Composition Assessment:** 2 Compositions- 30%

**Written/Listening Examination Paper:** Unfamiliar music and Set works- 40%

The Music GCSE course teaches all the elements of Music through Performance, Composition and Listening. This course will develop students into comprehensive and experienced musicians with many transferable skills. The course is designed and assessed in three components: "Understanding Music" (listening and written exam), "Performing Music" (solo and ensemble performance) and "Composing Music" (two compositions). Students will be able to play the set works or play and create examples of the specific musical genre that is being studied to enable a very practical learning environment.

**\*\* Please note that there will only be one (1) class of GCSE Music. If more students opt for this subject than can be accommodated a random selection process will be undertaken.**

### **BTEC Tech Award Level 2 in Music Practice\*\***

**Assessment: 60% work assessed internally; 40% work assessed externally**

**Component 1:** Exploring Music Products and Styles – 30%

**Component 2:** Music Skills Development – 30%

**Component 3:** Responding to a Music Brief (set by the exam board) – 40%

This course is based around learning through practical, real-world activities through the completion of three components of work. The course is designed for students who can play a musical instrument and who are keen to develop their performance skills, as well as build their musical knowledge. Students build a portfolio of evidence that will consist of written work, blogs, performances, presentations, compositions, etc. They will learn about lots of musical styles and making music in different genres and styles. Students will also learn about professional skills in the music industry and how to compose, create and record their own music. The final external unit will be a brief that is set by the exam board. This course is graded Pass, Merit or Distinction and is equivalent to a grade 4 – 9 GCSE grade.

**\*\* Please note that there will only be one (1) class of BTEC Music Practice. If more students opt for this subject than can be accommodated a random selection process will be undertaken.**

## Creative Subjects – Design and Technology

### **AQA GCSE in Design and Technology.**

**Assessment: 50% externally assessed exam; 50% controlled assessment.**

Throughout the course, students will develop skills in many areas, in most cases with a 'hands on' approach. Students will have the opportunity to express themselves and think outside of the box with their work. They will explore design movements, sketching, modelling, 3D printing, advanced laser cutting, mechanisms, vinyl sticker machines and much more.

This work will build on the student's knowledge of the world they live in, the technological advances used every day, and the impact technology has on the future. The student will complete a series of mini projects, including storage boxes, games console holders, clocks, and lighting. This will prepare them for coursework in Year 11.

Your points of contact are Mrs Fisher & Mr Royle

### **AQA GCSE in Design and Technology – Textiles Specialism**

**Assessment: 50% externally assessed exam; 50% controlled assessment.**

As with the above course students will develop knowledge and skills through a variety of resources, in most cases with a 'hands on' approach. Students will have the opportunity to express themselves and think outside of the box with their work working in a variety of materials but mainly fabrics. They will explore designers, generate, and produce design ideas, sketching, modelling, laser cutting and much more.

This work will build on the student's knowledge of the world they live in, the technological advances used every day, and the impact technology has on the future. The student will complete a series of mini projects in preparation for their coursework in Year 11

Your points of contact are Mrs Fisher & Mrs Thirkell

### **Eduqas (WJEC) Level 1 / 2 Award in Hospitality and Catering**

**Assessment – 2 Units of work – 1 x externally assessed 90-minute on-screen examination (40%) and 1 x Practical/coursework Unit internally assessed (60%)**

This course concentrates on the hospitality and catering industry. The student will develop a wide range of food practical skills such as bread, cake and pastry techniques as well as preparing fish, beef, and chicken dishes. They will develop their knowledge and understanding of the hotel and catering industry. The student will have the opportunity to learn about issues related to nutrition and food safety and gain an understanding of how a variety of factors affect the success of hospitality and catering operations. In this qualification, they will learn how to cook dishes to restaurant standard.

Your points of contact are Mrs Clarke, Mrs Ballard, Mrs Thirkell

***\*\* Please note that due to health & safety restrictions in specialist rooms, there will be a restriction on the number of students per class. If more students opt for these subject than can be accommodated, a random selection process will be undertaken.***

## Creative Subjects – RS and Sociology

Either Religious Studies or Sociology provide excellent subject choices for students who wish to learn more about the diverse and rich society that we live in, and both subjects require an inquiring, open mind, and an interest in other people's opinions and beliefs. Both subjects support integral aspects of many careers, including the media, art, journalism, criminology, teaching, social work, health, and law.

### **GCSE Religious Studies**

**Assessment: 100% written exam**

**Paper 1** – The Study of Religions: 1 hour 45 mins (50%)

**Paper 2** – Thematic Studies: 1 hour 45 mins (50%)

#### **Component 1 – Study of Religions, Christianity and Islam**

**Christianity** - The nature of God; creation; the afterlife; Jesus Christ and salvation; worship and festivals; the role of the church in the local and worldwide communities.

**Islam** - key beliefs; authority; worship; duties and festivals.

#### **Component 2 – Thematic studies from the perspective of Christianity**

Relationships and families; religion; crime and punishment; religion; human rights and social justice; religion, peace, and conflict.

We invite students from all Progression Routes to choose to study GCSE Religious Studies.

Your first point of contact is Mrs Edwards.

### **Eduqas (WJEC) GCSE Sociology \*\***

**Assessment: 100% written exam**

**Paper 1 Component 1:** Understanding Social Processes: 1 hour 45 mins (50%)

**Paper 2 Component 2:** Understanding Social Structures 1 hour 45 mins (50%)

Sociology is the study of people in society, and is based upon thorough research, enabling students to develop an understanding of the society they live in today.

#### **Component 1: Understanding Social Processes**

- Key concepts and processes – what is sociology, what makes humans different, feral children, how we learn to fit in to the culture of our society and how we learn our identity.
- Family – family types and structures, relationships, the role of families and changes within families.
- Education – the role of education, processes within schools, and the factors affecting educational achievement.
- Sociological research methods - different types of research, methods, sampling, practical and ethical issues.

#### **Component 2: Understanding Social Structures**

- Social differentiation and stratification – social power and authority, inequality and equality and poverty.
- Crime and deviance – patterns of criminal behaviour and explaining criminal behaviour.
- Applying sociological methods, including practical research carried out by the students.

Your first point of contact is Miss Aspray.

**\*\* Please note that due to staff availability, there will only be two (2) classes of Sociology. If more students opt for this subject than can be accommodated a random selection process will be undertaken.**

## Creative Subjects – IT Rich Courses

To deny the importance of IT in everyday life is naive at best and ignorant at worst. The impact of the pandemic has been managed and minimised through our Digital Life. Computers have enabled most of the UK population to continue their ability to work, educate and to socialise every day. At Fred Longworth High School students have the option to choose from three IT based qualifications. Please note that Students who opt to take Computer Science will also qualify for the English Baccalaureate because it is also an Ebacc subject. The Computing Department Team – Mr McKeown, Mrs Potter and Mr J Davies.

### **OCR GCSE Computer Science**

**Assessment: 100% examination - 50% written exam 50% onscreen computer exam**

Computer Science GCSE students will study the following Components, on which their assessments will be based:

**Component 1** Computer Systems

**Component 2** Computational Thinking, Algorithms, and programming

Introduces students to the central processing unit (CPU), computer memory and storage, data representation, wired and wireless networks, network topologies, system security and system software. It also looks at ethical, legal, cultural, and environmental concerns associated with computer science.

Students apply knowledge and understanding gained in component 1. They develop skills and understanding in computational thinking: algorithms, programming techniques, producing robust programs, computational logic and translators

The Computing Department Team – Mr McKeown, Mrs Potter and Mr J Davies

### **OCR Creative Interactive Media Level 2**

**Assessment: 40% Examination 60% Non-Examined Assessment (practical work)**

There are 3 Components to the full level 2 Course.

Two Mandatory Components are.

**R093: Creative iMedia in the media industry – Examined 40%**

In this unit students will learn the legal and ethical issues considered in the media industry and the processes used to plan and create digital media products. They will learn how media codes are used within the creation of media products to convey meaning, create impact and engage audiences. They will also study the media industry and associated job roles within this.

**R094: Visual identity and digital graphics - Non examination assessment 25%**

In this unit, students will learn all about developing a visual identity, planning a digital graphic that fits with this identity and then creating the visual identity and digital graphic using Photoshop.

The optional component is:

**R097: Interactive Digital Media - Non examination assessment 35%**

In this unit, students will learn all about creating a piece of interactive digital media that satisfies a client brief. The client brief will be given to you at the beginning of the project by your teacher and you will work through this brief and create the interactive digital media that is requested by the client. This unit is predominantly created in Microsoft PowerPoint.

The Computing Department Team – Mr McKeown, Mrs Potter and Mr Davies

## **GCSE Business**

### **Assessment: 100% Written exam**

There are 10 units in this GCSE course, split across 2 Papers. These start by taking students from how entrepreneurs start businesses (Theme 1) through to growing and global businesses (Theme 2).

There are two equally weighted exam papers, focusing on each specification theme. Theme 1 concentrates on the key business concepts, issues and skills involved in starting and running a small business. It provides a framework for students to explore core concepts through the lens of an entrepreneur setting up a business.

Theme 2 examines how a business develops beyond the start-up phase. It focuses on the key business concepts, issues and decisions used to grow a business, with an emphasis on aspects of marketing, operations, finance, and human resources. It also considers the impact of the wider world on the decisions a business makes as it grows.

The Computing Department Team – Mr McKeown, Mrs Potter and Mr Davies

## The Creative Subjects – Physical Education

All students participate in three core Physical Education (non-examination) lessons every two weeks. In this time, they will be able to participate in a range of sports such as: football, step aerobics, netball, cross-country, softball, athletics, hockey, badminton, rounders, volleyball, basketball, cricket, rugby, table tennis, fitness suite, yoga, trampolining, and tennis. Students will plan their own programme with guidance from a member of staff. They are expected to specialise in two sports during Key Stage 4.

Outside of core PE, students have the option of pursuing one of two Sport based qualifications.

### **OCR GCSE Physical Education**

**Assessment: 60% written exam; 30% practical exam; 10% controlled assessment**

Theory Examination (60%) **Paper 1 & Paper 2 are each worth 30%**

Practical Examination: students will be assessed in 3 practical sports (10% for each sport)

AEP Controlled Assessment - analysing and evaluating Performance (10%)

This course is an excellent academic option for those who really enjoy Physical Education. It is a theory-based subject, with 60% of marks being allocated to theory. Students are graded using 9 - 1 grading and will have to complete 2 written papers focusing on topic areas such as health and fitness, physiological, social and the psychological aspects of sport.

Students will be assessed in an individual sport, a team sport and another which can be either.

While valuable and enjoyable, this course is also a useful introduction to 'A' Level Physical Education, as well as Level 3 vocational qualification in sports.

Your first point of contact is Mr Gregory.

*Please note that students cannot study both OCR GCSE Physical Education and Cambridge National in Sports Studies. Please note that there will only be a limited number of students in (1) GCSE PE group. If more students opt for this subject than can be accommodated a random selection process will be undertaken*

### **OCR Cambridge National Certificate in Sports Studies Level 1/2 Certificate**

**Assessment: 60% coursework; 40% examination.**

This is a vocationally related qualification that takes an engaging, practical and inspiring approach to learning and assessment. It provides students with a broad knowledge and understanding of different aspects of sports studies. These range from contemporary issues in sport and the relationship between sport and the media, to developing the practical skills essential for progression into the sports industry. The Level 2 qualification is the equivalent of one GCSE (grade 9 – 1).

All work is assessed through the submission of a portfolio of evidence for each unit of work. This could include learning logs, pictures, and video evidence. As the collection of this evidence is ongoing throughout the course, good attendance is really important to succeed, and assignments of the highest quality must be produced. The following units will be completed:

1. Contemporary issues in sport-exam
2. Performance and leadership in sports activity- coursework
3. Increasing awareness of outdoor and adventurous activities- coursework

This course is also a useful introduction to a Level 3 vocational qualification in sport, as well as supporting learners in the development of the practical skills essential for progression into the sports industry.

Your first point of contact is Mr Gregory.

*Please note that students cannot study both OCR GCSE Physical Education and Cambridge National in Sports Studies.*
